How It Works

Instant Connection

On-demand client portal

Live Assignment

Courier assigned in 120 seconds

Chain-of-Custody Verified

Barcode, temp log, photo POD

Trusted by Orange County Local Medical Professionals

99.7% On-Time STAT Rate

Built Only for Medical Transport

Most courier companies move everything. SmartStat moves only regulated medical materials.

That means:

- No retail packages in the vehicle
- No mixed-priority routing
- No dilution of compliance standards
- No exposure to consumer-route delays

We operate as a dedicated medical logistics partner — not a general courier service.
